## Social Schools

We would like to know if our newsletters reach you. Social Schools can tell us how many parents have read it. That's why we are using Social Schools.

At this moment 44% of parents are linked to Social Schools, we are going for the full 100% participation! The advantage of Social Schools for you as a parent is that you can also contact the teacher directly, if you have illness or come late, you can report it in the Social Schools app.

### Need help?

If it's difficult for you to link to Social Schools we can make an appointment. Ask for Joost Bakker or Izairra Piña. We'll be happy to help you!!

## In the coming weeks parent conversations with the teacher

Starting next week, there will be another 10 minutes of conversations with the teacher. Your child's teacher will make the appointments by email. The conversations take place via Microsoft Teams. The mail contains a link to Microsoft Teams. Click on it and the program opens. This also works on your phone or tablet.

## School swimming restarted

School swimming starts again next week!

## Fruit buddies, the kledincollection was a great success!

The clothes bins of Fruitvriendjes have now been picked up. So much clothing was donated that three containers could easily be filled. Thanks to everyone who has donated so generously! From mid-December, the European Union will take over the distribution of fruit every Wednesday, Thursday and Friday for the winter months. Then the fruit buddies will take fruit distribution over again.

## Jump-in

This week we send a letter as an attachment. This letter tells about the pupil tracking system of the Jump-In project of the Municipality of Amsterdam.
